---

Wayne:

See the attached document. I believe that Lubrizol/Griggs Road PRP Group and their contractors will need a letter from the Trustee similar to this so that they can act on behalf of the estate with the City of Houston. I think this should be a separate document from the Access Agreement. This will allow them to do those things necessary with the City to accomplish the cleanup. You can talk with Karen Walter about the extent of this Power of Attorney.

Thanks
